

EMERGENCY PREPAREDNESS SERIES FOR ANIMAL CARE PROVIDERS

May 2026

Join us to learn about animal care concerns during a disaster and collaborate to develop best practice strategies at the community level. This series is recommended for veterinary professionals, animal shelter and rescue workers, volunteers, and anyone else with an interest in the intersection of human and animal health and safety.

Every Wednesday in May from 1:00 PM - 2:00 PM MDT

All sessions are virtual.

(Please note sessions have unique registration links. You must register separately for each session you wish to attend.)
