

SIPH’S Communicable Disease Investigations: A Closer Look

Southeastern Idaho Public Health’s Communicable Disease Investigation Program focuses on detecting, investigating, and controlling the spread of infectious diseases. By identifying sources of infection and preventing further transmission, the program works to protect public health and provide the community with essential information to stay safe and healthy.

TOP 5 COMMUNICABLE DISEASES: A SPOTLIGHT ON OUR INVESTIGATIONS

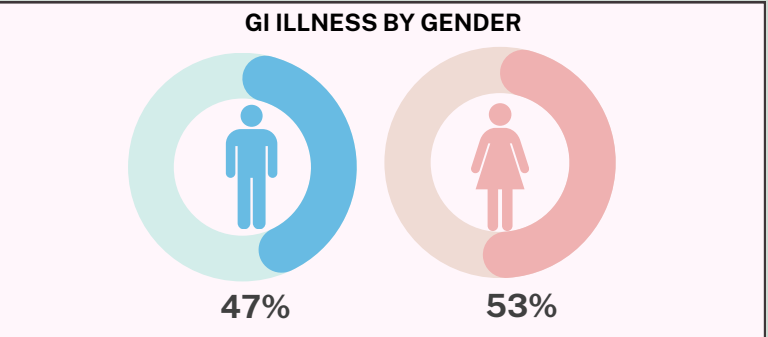

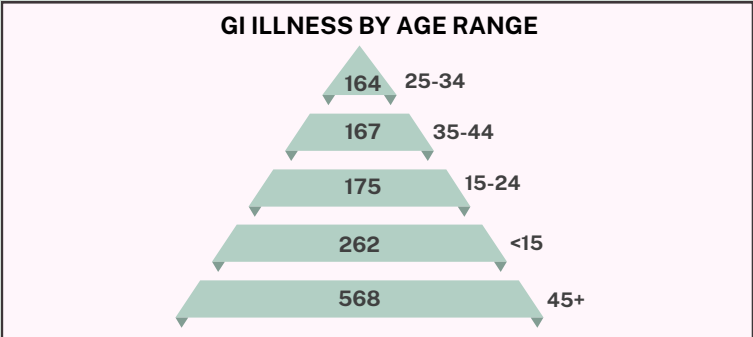

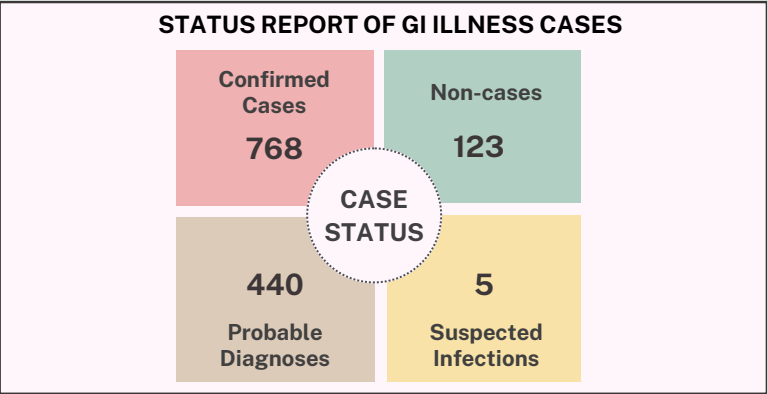

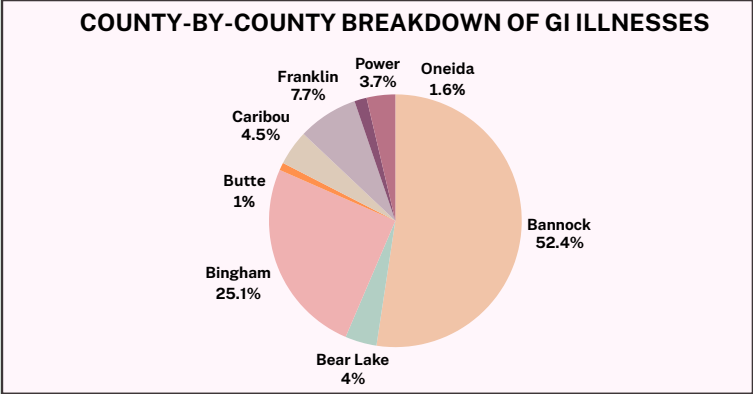

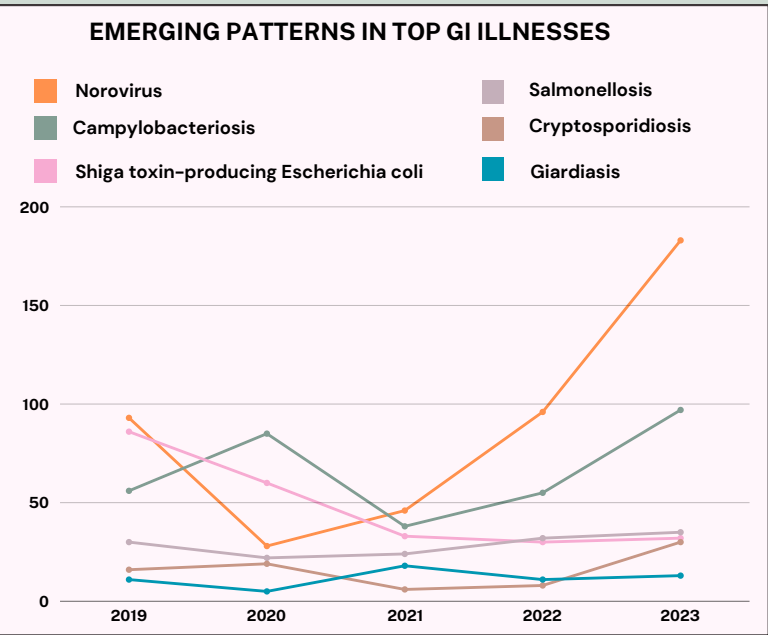

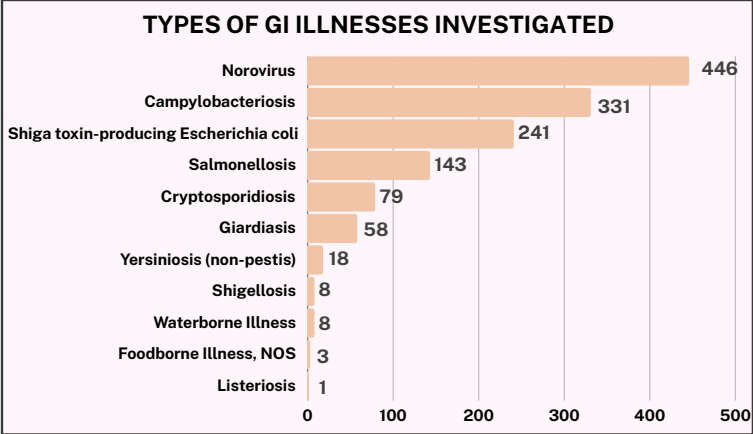

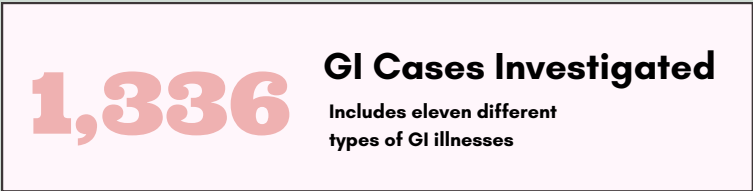

*MMWR YEAR: 2019-2023

Note: COVID has been excluded from the list, as it is treated as a unique case.

COMPREHENSIVE GASTROINTESTINAL ILLNESS INVESTIGATIONS

*MMWR YEAR: 2019-2023
