

"Smart Planning, Brighter Futures"

SIPH'S FAMILY PLANNING PROGRAM (TITLE X)

Southeastern Idaho Public Health's Family Planning Program is committed to empowering individuals with the knowledge and resources needed to make informed decisions about their reproductive health, ensuring the best outcomes for themselves and their families.

THE PROBLEM

The number of women worldwide desiring to use family planning has increased markedly over the past two decades, from **900 million** in 2000 to nearly **1.1 billion** in 2021.*

In 2016, of the **68 million** U.S. women of reproductive age (13–44), **21 million** likely needed public support for contraceptive services due to income below **250%** of the federal poverty level or being under 20 years old.**

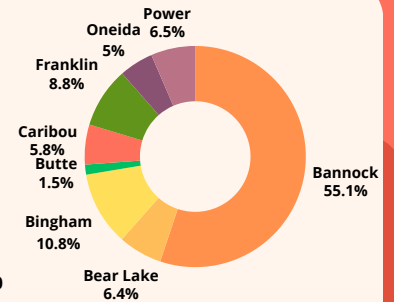

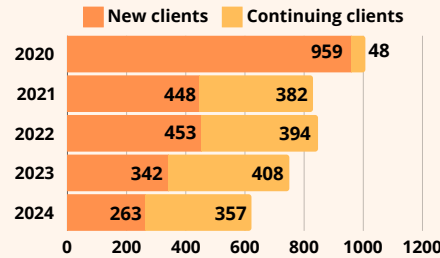

Idaho's Pregnancy-Related Mortality Ratio (PRMR) fluctuated from **28.0** in 2018 to **18.1** in 2019 and increased to **32.5** in 2020, according to data from the Idaho Department of Health and Welfare.***

Supporting Families and Strengthening Health (FY2020-FY2024)

Total Clients Served

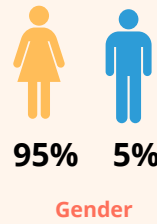

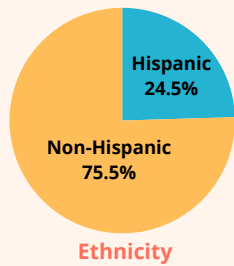

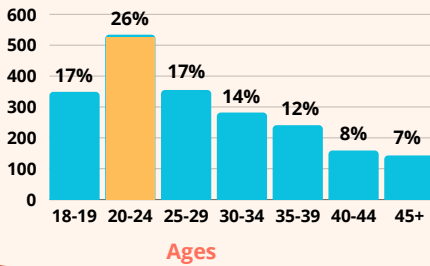

4,054

TOTAL NUMBER OF CLIENTS SERVED

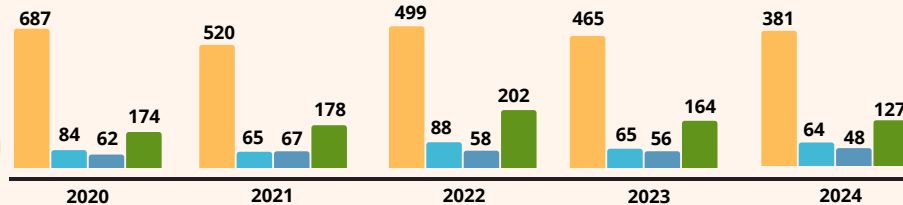

"The 2020 data was significantly influenced by a transition to a new Electronic Medical Record system."
