

WOMEN'S HEALTH CHECK PROGRAM

Southeastern Idaho's Women's Health Check Program provides critical preventive health services to women who may otherwise go without care. Focused on early detection of breast and cervical cancer, the program connects eligible women to screening, diagnostic, and follow-up services. By removing barriers to access and working closely with healthcare providers, Women's Health Check plays a vital role in protecting women's health and strengthening community wellness.

THE PROBLEM

9/10

EARLY DETECTION SAVES LIVES!

When caught early, 9 out of 10 women diagnosed with breast or cervical cancer will be with us five years later.
