FREE HIV and Syphilis Testing for the Month of June

Southeastern Idaho Public Health (SIPH) will be offering free HIV and Syphilis testing to at-risk individuals throughout the month of June in all their county locations. Testing only takes a few minutes and you can get results before you leave! Visit siphidaho.org to locate a clinic near you. Same day appointments are available! There is only one way to know – GET TESTED!

If you have ever had sex without a condom or injected drugs, you could have been exposed. Most people have some risk, call your local public health office to find out if it's recommended for you to get tested. For more information about HIV and Syphilis, visit www.siphidaho.org.
