To help prevent the spread of this virus, it is more important than ever that the public follows the following prevention methods.

- Wear cloth face coverings in public places.
- Practice social distancing (6ft).
- Stay home if you are sick.
- Avoid people who are sick.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- Cover your nose and mouth with a tissue or your sleeve when you cough or sneeze.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Cleaning and disinfecting surfaces and objects that may be contaminated with germs using a disinfecting solution.
- Get vaccinated when the vaccine is available for your priority group.

If you believe you have been exposed, make sure to self-isolate. If you need medical attention, please call your healthcare provider in advance of a visit to discuss your symptoms and next steps. Testing is available by calling 208-234-5875. SIPH has a call center to field questions from the community and is open Monday-Friday 9:00 a.m. to 4:00 p.m. You can reach the hotline at (208) 234-5875.
